

CAPTURE NETS*

NOTE: In addition to the standard size nets below, we manufacture custom nets to any size and for most species of animals. Please contact us for a quotation to fill your exact netting needs.

Deer-Big Game Net: 57' x 43', 6" square mesh, 560 pound test knotted nylon net completely hung with fringe ropes, 4 sets of shroud lines and 5 anchor lines; treated with dark net preservative that also holds knots in place.

Turkey Net:** 57' x 33', 2" square mesh, 60 pound test knotless nylon net completely hung with fringe ropes, 3 sets of shroud lines and 5 anchor lines; treated with dark net preservative.

Turkey Net:** 57' x 43'; otherwise same as above.

Waterfowl-Pigeon-Dove Net: 57' x 33', 1 1/4" square mesh net of 48 pound test knotless nylon completely hung with 2' tapered fringe, with fringe ropes at top and bottom; 3 sets of shroud lines and 5 anchor lines; treated with dark net preservative.

Waterfowl-Pigeon-Dove Net: 57' x 43'; otherwise same as above.

Drop Nets: 60' x 60', or 40' x 40', or 30' x 30' nets can be suspended over a collection area, then dropped to capture wildlife. If a center hole for a pole is required, please specify. Waterfowl nets are made of 48 pound test knotless nylon, turkey nets are made of 60 pound test knotless nylon, and deer nets are made of 560 pound test knotted nylon. Choice of mesh includes 1 1/4" square for waterfowl, the 2" square turkey type, and the 6" square deer mesh. To assist suspension, a wire-rope thimble is attached at each corner. More thimbles are available. There are no shroud or anchor lines unless requested.

Lead Nets: Nylon webbing sidewalls create a chute for herding animals into a corral. Most lead nets are made of 560 pound test knotted weight mesh, but can also be made of the 60 pound test knotless nylon for turkeys and 48 pound test knotless nylon for waterfowl. Lead nets are available in various lengths, 6' width by 100' long, or 10' by 100', for example. Panels can be tied together for the length desired. Lead nets come with thimbles on each end for attachment or anchoring.

*Wildlife Materials does **NOT** manufacture or sell the charges or rockets for nets.

** A 2' tapered skirt can be added to these nets for \$100.00.
